MPV Named to Healthcare Informatics 100 List for Third Consecutive Year

AUSTIN, Texas. – June 8, 2009 – Medical Present Value, Inc. (MPV) today announced that it has been named to the Healthcare Informatics 100, an annual listing of the top 100 healthcare IT companies based on the previous year's revenue.

This year's listing marks MPV's third consecutive showing in the ranking, which includes companies from a broad range of specializations within the healthcare IT sector.

"This recognition reaffirms our success in helping healthcare providers address the complex demands of today's consumer-directed healthcare environment, from verifying insurance eligibility and validating reimbursement accuracy to estimating patient financial responsibility for services rendered," said Tom Stampiglia, CEO of MPV. "We are pleased to be included in the listing for a third year."
